LOCAL GRAIN AND PRODUCE.

Trade Satisfactory in Most Lines,

with Stendy Prices.

Not in many months has trade on the

wholesale streets been more satisfactory

than at the present time, the bright, cold

weather giving snap to business generally.

Merchants who handle holiday goods are

very busy. On Commission row a good busi-

ness in progress. There are so many more

houses engaged in business here than for-

merly that the division of the business nat-

urally cuts more or less into the trade of

new to note. In fruits and vegetables there

is a tendency to better prices, but no

narked advance. Poultry is firmer, but no

higher. Eggs firm at the last advance. But-

ter is in good supply. Sugar, however, is

easier in tone and lower in prices will not be

a surprise. Provisions are moving freely, an

impression prevailing that as to prices the

There was more activity in the local

grain market yesterday, receipts of corn

increasing with a fair demand for all cere-

als at the range prices, track, given be-

STATES of whatever character are, as a rule, more difficult to hold to than to get. Passing from the hands that accumulated them, the subsequent history is too often a record of a crumbling away, slowly or quickly, as the case may be, the process beginning with the first set-tlement.

The undersigned institution is organized, among other things, for the care of estates, either as assignee or custodian under will, and either for the first settlement or for their continuous direction and management as

Its facilities enable it to discharge these duties at a less cost to the owner than individual service can be secured, and with greater precision and celerity. Its financial standing (\$2,000,000 in all) affords the fullest guaranty of safety. Consultation on this subject, for

which no charge is made, is invited from all interested in estates of any kind, real or personal.

### THE INDIANA TRUST COMPAN'

OFFICE-23 S. Meridian St.

### CAPITAL - \$1,000,000 SUGAR TRUST SAILED

ALMOST UNPRECEDENTED TRANSAC-TIONS IN REFINERY SHARES.

Out of Total of 272,000 Traded in 170,-000 Were Sugar-Local Markets

Firm and Satisfactory.

At New York, yesterday, money on cal

was easy at 10011/2 per cent. Prime mercantile paper, 21/404 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.88@4.88% for demand and \$4.86%@4.87 for sixty days; posted rates, \$4.87\\@4.88 and \$4.88\\@4.89; lal bills, \$4.86@4.86%.

Silver certificates, 60% bid. Bar silver, 60%c. Mexican dollars, 50c. At London, bar silver, 27 15-16d per ounce.

Total sales of stocks were 272,370 shares, including the following: American Sugar, 171,900; Burlington, 8,300; Chicago Gas, 19,-500; Distilling, 2,800; Louisville & Nashville, 2,700; Northwestern, 6,100; St. Paul,

Active speculation on the Stock Ex-

change, yesterday, was confined to Sugar. Chicago Gas and the granger shares. Outside of these securities the transactions did not reach 40,000 shares, and of the total sales of the day nearly two-thirds were of Sugar, 170,000 of which changed hands, being about the heaviest sales of any single stock on the exchange in one day. An opportunity was afforded for this very lively trading by the uncertainty which prevailed up to the close of business as to dividend. The stock rose and fell as the operators therein viewed the situation, except that a reaction was brought about at one period of the day by the receipt of advices from Washington that Senator Quay had introduced a bill to take off the differential duty on sugar. The controlling influence, however, was the proba-

the stock to-day,

fect the directors' pronunciamento may

have on the value of the stock. The course of the shares to-day was even more erratic

than usual. An advance of 2 per cent. was

made in the first fifteen minutes, which was quickly followed by a decline of 1 per cent.

and a prompt rise of 21/2 to 88%, which figure was reached about noon. After midday a

clared, an advance to 89 was effected, the

ales for the foreign account made in the

belief that St. Paul will have to fall in line

with its sister companies in reducing the

rate of dividend. A decline of 1 per cent. took place, of which half was recovered in the late trading. Rock Island closes unchanged on the day, while Burlington & Northwest are each % higher. The general market was unsettled, but was without important feature and closed fairly firm, the more important changes on the derivative of the decrease of t

the more important changes on the day being advances of 1½ in St. Paul & Omaha

There was a firm tone to the bond mar-ket during the day and a more general dis-

The total dealings aggregated \$1,190,500. The principal changes are: Peorla, Decatur & Evansville firsts, 1. Declines: Burlington

debenture fives, 1%; Toledo, Ann Arbor & Cadillac firsts, 2%, and National Starch

firsts, 1 per cent. Government bonds were strong. State

What Flower's Friends Say. Boston Transcript. When not traveling, Dr. Flower lives with his wife and two children at his home on Commonwealth avenue, and he is said to be interested in the company organized under his name doing business on Colum-bus avenue. In behalf of the Doctor it is said by his business associates that Mr. Foster expressed himself as highly satisfied with the land scheme, after having thoroughly investigated it; that at Dr. Flower's suggestion Mr. Foster had the selection of the treasurer, and that the Doctor has never had the handling of the money invested; that Mr. Foster sent all his money directly to his own treasurer in New Mexico as it was called for, and that he put in only about \$40,000. He also invested heavily on his own account in lands in the vicinity of the properties of the company. Becoming dissatisfied, he wanted his partner to buy him out, and he made a contract to sell to Dr. Flower. When it was evident that the enterprise was bound to be a great success, Mr. Foster wanted to repudiate the contract, so Dr. Flower's friends say, and brought a civil suit of \$5,000 against him in Boston, and also one against Colonel Smith in Chicago, The later was never tried, as the court ruled there was no cause of action. Then the indictment was procured and Dr. Flower arrested, but not for more than a month after it was obtained. An indictment previously procured on which the Doctor was arrested in Indiana was quashed. Dr. Flower's partner, Paschal R. Smith, not unknown in Boston. He makes the Parker House his home when in this city, and he is best known as the promoter of

### WHEAT DISCOURAGED

THE PRICE WEAKENED AT CHICAGO AND FELL OFF 1-2 CENT.

Corn and Oats Remained Steady and Closed Without Change-Provisions Declined.

CHICAGO, Dec. 5 .- Liberal selling and discouraging foreign markets weakened wheat to-day, May closing 4c lower. May corn and oats closed unchanged and provisions declined moderately.

There were still some fag ends of long

wheat for sale when the market opened. They came out of many hands and were not wanted except at a reduction of 4c per bushel from yesterday's closing price. The Liverpool market was reported as opening from 1/2d to 1d lower. Minneapolis and Duluth receipts were 608 cars, compared with only 368 on the corresponding day last year. Another consideration of a weakening character was that the government report on the amount of wheat fed to stock by farmers from harvest up to Dec. 1, it was ascertained, would be issued from Washington at 4 p. m. to-day, and it was claimed to be ascertained that the amount so fed was 40,000,000 bushels. New York wired that foreigners were selling some wheat at the opening there and exporters there and at St. Louis wired that there was a reduction on yesterday's bid for export of from 1c to 2c per bushel. Argentine was selling July wheat in New York. The opening price for May was from 604@60%c, compared with 601/260% at the close yesterday. It kept around the opening figures for about fifteen minutes, after which buying orders gradually worked prices up again until about 11:30 a. m. 60%c was realized for two or three 5,000-bushel lots. The Southwest sent buying orders. New York increased their export business of the day before to seventy boat loads taken there and sixty-three at outports. The closing cables report a great advance at Berlin, amounting to the equivalent of 11/2c per bushel, but the French and English markets were easier. New York sent selling orders @2.10. Whisky, \$1.23. Cotton ties, 65c. Bagon their insight into the weakening foreign feeling. Probably for every foreign order for 10,000 bushels received there, New York sold 100,000 bushels here. The market became very weak on that selling and twenty minutes from the close the price was down to 59%c. It rallied slightly, closing at 60%c. The receipts of corn were even smaller than the small estimate yesterday. Notwithstanding the small receipts the market opened off 1/3c in sympathy with the weak-ness in wheat at the same time. Receivers and elevator men were the sellers, and the market continued to sag until the estimate for to-morrow's receipts was given at only 200 cars. From that time the price had an advancing tendency, shorts being the buyers until the extreme closing weakness of wheat influenced some additional selling. The opening for May was 49½c, and it sold at 49%c before it commenced to retrace its steps. It touched 50c, reacted to and closed at 49%c. oats. Fluctuations were confined to a nar-

A very light business was transacted in row range, and entirely in sympathy with the movements of corn. May started at 321/6/325%c, sold at 321/2c and at 321/2c, closing at 32%c.

Hog receipts numbering 52,000 head against estimates yesterday of only 44,000 gave the provision market a weak send-off, and the limpness of the wheat market kept the tone of the provision market heavy during the entire session. The declines in the speculative articles since yesterday are: January pork, 2½c; May, 5c; lard, .02½c in January and .05c in May and .05c in both January and

Freight rates steady at 3c for grain Estimates for Thursday: Wheat, 60 cars; corn, 200 cars; oats, 160 cars; hogs, 48,000

CHICAGO, Dec. 5.—There was more vitality in the cattle trade to-day than on yesterday or the day before. Receipts did not come up to expectations. Good to prime steers sold strong to 10c higher than yesterday. The medium class of steers was not more than steady. Cows and heifers were strong. There was also a good de-mand for stockers and feeders; prices range from \$1.25 to \$1.50 for rubbish to \$6.25@6.60 for extra quality Christmas steers. The market closed firm.

market closed firm.

The hog market continued weak, with fresh receipts of something like 55,000 head. Opening prices were 5@10c lower than yesterday's close, and the feeling was heavy throughout. Packers bought common to prime heavy hogs at \$4.25@4.65 and paid \$4.15@4.45 for common to choice light weights. There was a sale or two of fancy broad backs at \$4.70, but sales at better than \$4.60 were few and far between. From \$4.30 to \$4.45 bought most of the 150 to 200-pound hogs, and \$4.35@4.55 the bulk of the heavier weights. heavier weights.

Activity and firmness continued features of the sheep market. The receipts were liberal, but sellers were unable to promptly place everything that had merit. Good to extra sheep were salable at \$2.75@3.60 and poorer qualities at \$1.50@2.50. The lamb market was firm at \$2.50@4.25 for poor to choice.

Sheep steady and unchanged.

Indianapolis Horse and Mule Market. 

How to Make Baking Powder. Po the Editor of the Indianapolis Journal Part fifth of bulletin No. 13, issued by the Department of Agriculture, is devoted to a consideration of baking powders. This document emanates from the division of chemistry, of which Dr. H. W. Wiley is chief chemist. After an elaborate discussion of baking powders, wherein the resuits of analysis of thirty-one brands of powders are given, the author says: "With a view of determining the possibility of making up baking powders from a simple formula that could be used in the household, and also to see what strength of powder could be obtained by lessening the quantity of filling used, I compounded a

number of powders from commercial cream of tartar and soda, using different proportions of starch." Then follow four formulas that were tried, the last of which is: Cream of tartar.....8 ounces Baking soda.....4 ounces Corn starch..... ounces This formula gave an available carbonic

acid of 10.91 per cent. The average of the nine samples of tartaric powders analyzed gave of available carbonic acid only 9.53 per cent., and the average quantity of starch used was over 20 per cent. The report says of the powder made from the above formula: "This gives a fairly good amount of available gas; considerably higher than the average of the commercial samples. I had it tried in a practical way by several persons in the department, who used it their kitchens and reported excellent results, finding it fully as efficient in all re spects as the powder they were accustomed to buy. The consumer can pay full retail price for the ingredients and still make it up for about half the price at which a good powder is sold, and if he makes sure

of the quality of his cream of tartar he

will have an article of which the purity is assured, and which has not lost its

strength by being kept in stock an in-definite length of time by the retailer. I

can see no reason why all nousekeepers should not make their own baking pow-Indianapolis, Dec. 5. Jobs for the Defeated. Special in Chicago Post.

A new industry is springing up in Congress, namely, the creation of a commission designed to promote the welfare of the people. The country is in imminent danger of being overrun with commissions for the next year or two, and the ingenuity of statesmen who will presently be out of jobs is being taxed to the limit to provide themselves with pleasant employment in this line. The list promises to include boards on mineral resources, irrigation, land grant, railroads, district or sectional commissions on river and harbor improvements, currency, labor, arbitration, Nicaragua canal, farm census, inland navigation, etc. The ill-natured suggestion for the appointment of a commission to inquire into the causes of the recent astonishing ballot-box phenomenon is not received with favor. That job is too big.

Mysterious Remark. New York Commercial Advertiser. Unfortunately, White Caps are only

## THE INDIANAPOLIS

# Daily, Sunday Meekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and obcurrences that are likely to be of particular interest to the Indiana public.

## Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the manage ment of a gentleman well acquainted with the local business and political issues.

It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information

from every quarter. Its staff of city reporters is large and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate ana trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies' the most exacting taste.

# The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
